## Objective

To improve my software development knowledge by learning from peers and mentors in open source projects. I am seeking entry level opportunities in backend development and software engineering.

## Interests & Extracurriculars

**Open Source Software**  
github.com/dwbrite

**Web Development**  
ajitvpai.com \ dwbrite.com

**Home Server Maintenance**  
Email \ Hosting \ Networking

**Theater Club**  
Officer \ Actor \ Stagehand

**Music**  
Guitar \ Piano \ Vocals

## Education

**A.S., Computer Information Systems**

Dec 2019

**Web Development & Programming**

Quinsigamond Community College  
Worcester, MA

## Related Course Work

- Web Page Development II
- SQL Programming
- Systems Analysis and Design
- Programming with C++ II
- .NET Programming II (VB)
- Integrated Communication for Business

## Experience

**Backend Development Intern**  
**ProGlove - Munich, DE**

Jan 2019 - July 2019

- Wrote backend services and APIs in Go and Python
- Followed software development best practices with git, test-driven development, and CI/CD
- Developed a cloud-based platform for IoT device management using AWS
- Assisted in the interview process of new candidates

## Additional Skills

### Programming Languages

#### Proficient

- Java
- Kotlin
- Rust
- Go

#### Familiar

- SQL
- C++

### Developer Tools

- Linux, Windows
- Git, GNU Make
- Gradle, Cargo
- Apache Server, Nginx
- PostgreSQL
- DynamoDB
- AWS cloud
- Office software
